Rev. William H. Fish and His Good Work.

WHAT ONE YEAR HAS YIELDED

Church Built and Paid fer, and Bebts Wiped Out,

People of the First Unitarian Church Will Hold a Dedicatory Jubilee.

At the close of his sermon at the First 'nitarian church yesterday morning. Rev. William H. Fish, Jr., made a statement of the financial condition of the whurch which was a source of gratiication to every member of the society. to every one interested in the Unitarian povement in this city. For several years past the society has had up-hill work in this community, so far as the financial part of the church was conerned, and has been burdened from year to year not only with the regular debts of the church but with the ap cals from old creditors for the payment of money long due.

During the past week the last of these debts has been wiped out. Many of the creditors were generous with the ociety and were willing to accept 50 per cent of the amount due, while others were paid in full. In addition to the payment of these old debts, the society has within the past year raised funds with which to build its new church, osting about \$15,000, Rev. Mr. Fish tailing yesterday morning that all but his about half has been subscribed, and is the hope of the pastor and others iterested in the congregation that this mount will be raised by one week from

tonight, when the annual meeting and parish supper will be held.

Not until all the debts hanging over the church have been fully wiped out will the new hall be dedicated. If, as s expected, the full amount shall be taised during the coming week, the ded-tation service will probably be held the last Sunday in January or the first Sunday in February. Rev. David Utpastor of the First Unitarian church of Denver, and for a number of years the pastor here, is to be invited to take

friends in all parts of the country, but particularly in Massachusetts and other New England States, where he lived the greater part of his life. Last summer he went to Boston and succeeded in raising a large part of the amount needed for the erection of the church here and friends that subscriptions have been coming in varying amounts ever since.

Rev. Mr. Fish was yesterday the
recipient of many congranulations from
the members of the church because of he work he has done since coming

GOOD TEMPERANCE TALK.

Elder Spencer at the Tabernacle Condemns Strong Drink.

Elder Samuel Spencer occupied the entire time at the regular Tabernacle pervices yesterday afternoon and devoted the time to expounding a number of the principles of the Mormon doctrine. Among others he referred to the feachings regarding the virtue of then as well as women, and said it was a shame if there are today any men as pure as the day they were born. He said further that there is an influence in the Mormon teachings that will keep men away from salcons, that will keep them from swearing, that will make them hold virtue dearer than their

The non-use of tea and coffee and strong drink was also set forth by Elder Spencer as one of the prime principles of the Mormon faith and said if any cormon indulged in these, it was not ciormon indulged in these, it was not the fault of his teachings. He added, however, that parents, while teaching these principles to their children, often fail to live up to them themselves. This causes their children to lose confidence in them and drives them out into the streets to listen to something else. He therefore appealed to parents to live up to their teachings, saying that he is lieved the Latter-day Saints would be held responsible for their practices as well as their teachings by precept.

After the singing of "Rouse, Ye Mor-

ials," by the choir, Elder Rudger Claw son pronounced the benediction and the congregation was dismissed.
